2021

The story of Dark Minimal Project began when Guillaume Vanderosieren (Songwriter - Keyboards and Vocals) shared his first demos with Ange Vesper (Keyboards - Drums and Vocals).

2022

The encounter with producer Peter Rainman was decisive and solidified their project. They finalized and released their first album, "Cold Black Room." Drawing on their experience in electro clubs, the duo quickly established themselves as a live band capable of captivating and moving audiences, particularly with the tracks "In Your Eyes" and "Worksite." Their sound quickly spread to neighboring countries such as Belgium and Germany.

2023

The first European performances took place in 2023 with the release of their second album, "Ghost of Modern Times," which was acclaimed by the international press, particularly in Belgium and Spain.

The LP included tracks like "Infected By Love," where Ange's vocals bring a provocative sensuality. The band supported Das Ich, Rue Oberkampf, and Parade Ground.

Their "Modern Times" tour lasted a year and concluded with a memorable concert alongside the Canadian band "Psyche" in Belgium.

At the same time, the band decided to release an EP of remixes from their second album.

An LP simply titled "Remixes" of "Ghost of Modern Times" was released in February 2024. It features remixes by Dominatrix, Ruined Conflict, Fatherless Child, People Theatre, among others, and "Cherry on the Cake," a remix by Patrick Codenys of the famous Belgian band Front 242..

2024

DMP signs with the German label "Infacted Recordings," managed by Torben Schmidt, and releases the double single "Staring Away / Time Runs Out" with a remix of Frozen Plasma in October 2024 and "Spoke to The Devil" (Rob Dust version).

2025

For this year 2025, Dark Minimal Project invites you to discover its third album "Pleasure is a sin," scheduled for release on September 26, 2025, which will kick off the "Sin & Pleasure" tour in Europe.
